Making Your PPM Tools Work for You

Atul Kunkulol and Don Dickson

What we hope to show ...

- The value that you can uncover by fully utilizing their existing PPM software.
- The importance of integration of PMO processes.
- The importance of integration of people/process/technology.
- How to put together a roadmap and start the journey

Evolution of PPM Tools As needs arose, separate tools were added.

Executive Reporting

Project Accounting

Resourcing

Ideation

Time Tracking

Collaboration

Issues and Risk Tracking

Capacity Planning

Scheduling

Cost Tracking

Status Reporting Approval and Governance

Hosted By

Emergence of PPM Tools

ERP

HR

PMO Tool

Trend in PPM Tools

- Additional functionality to support non traditional project types and methods.
- Management of Non-project work: assets, product services.
- Standard Interfaces
- Non- Project users

Value proposition of a single PPM tool.

- Single source of truth
 - Single entry point
 - Consistency of data
 - Accuracy of Data
 - Transparency

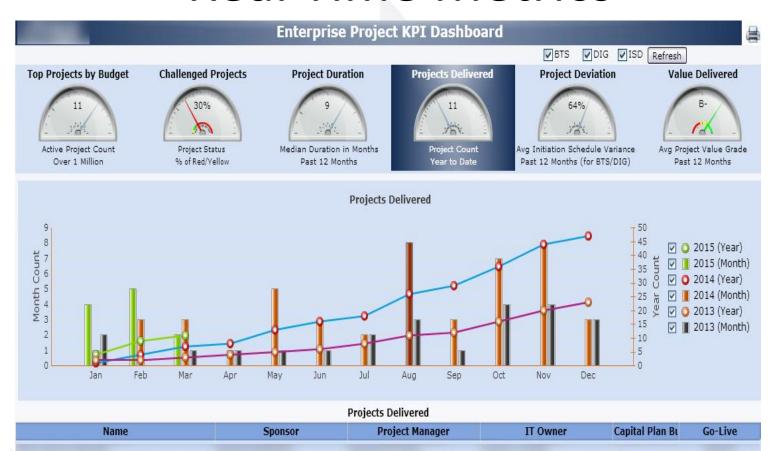

- Ease of Reporting
 - Standard reporting
 - Adhoc reporting
 - Metrics
 - Data Latency

Data Analytics and Decision Making

Real Time Metrics

The Pit Falls

- Focus on the tool and not the people and process
- Track and measure too much data
- Implement too much too fast
- Little or no Executive buy-in

People + Process + Technology

People	+	Proces s			=	 Inefficiency People are working hard doing non-value added work Data is error prone
People			+	Technology	=	 Inconsistency
		Proces s	+	Technology	=	IneffectivePeople are not trained and/or motivated
People	+	Proces s	+	Technology	=	 Efficient use of resources Accurate data for decision making

Developing a road map

Current State
Assessment

Future State Definition

Plan Development

The Roadmap includes

- Work items connecting to gaps and value to the organization
- Includes both short term and long term work
- Training, Process work and technical development
- Provides value to executive, management and practitioners
- Organizational change
- Reality

The Goals

- Alignment of People/Process and Technology
- Efficient use of staff resources
- Data available for decision making
- Data accuracy and consistency
- Single source of the truth
